

ANOTHER WARRIOR TO THANK

There are many organizations, large and small, throughout California fighting to protect mobile home owners rights. While some of us enjoy both small and large victories on our own efforts, it takes all of us working together to achieve lasting victories. The day will come when we all join together in a huge united effort to finally correct some of the major problems and hurdles facing us, specifically that of true enforcement .

One organization doing an outstanding job is the MHPHOA, or the **Mobile Home Park Home Owners Alliance**. They are fighting against one of the most abusive money-grabbing owners in the state. Their web site is a great resource and SMMRA is proud to join with other Homeowner associations in linking to their web site. Go there and see for yourself what a great job they are doing.
